Preparing For Your Tour

Travel Services

If you're not already working with a travel agent, DuVine can assist with the following reservations for up to three days before and after your tour. A fee of \$75 per traveler will be applied.

- Pre and post-trip hotels in major cities, in addition to the first and last on-tour hotels
- Train travel
- Private transfers

Travel Protection

DuVine offers a **Travel Protection Plan** to help protect your travel investment, your belongings, and most importantly, you. The offered Travel Protection Plan is non-refundable, but it is strongly recommended in the unfortunate event that you have to cancel or leave your trip.

NOTE: Plan benefits, limits, and provisions may vary by state or jurisdiction. In order to receive full benefits, Travel Protection must be purchased within 21 days of initial tour deposit. This plan is available to citizens of the U.S. and Canada only.

Gratuities

Gratuities for DuVine guides are very much appreciated to thank them for exceptional service, support, and expertise. The industry standard is for each individual guest to tip 10-15% (U.S. tours) or 7.5-10% (all other tours) of their trip price at the end of the tour. Unless you want to tip separately, guides will divide tips among themselves. Guides graciously accept gratuities either in local currency or via **PayPal**. We recommend that you plan ahead by bringing extra cash or visiting the ATM at the beginning of your trip, since ATMs are not always available near the last hotel of the tour.

YOUR TOUR DETAILS

Bikes

DuVine's top-of-the-line bikes are tuned to perfection and fit specifically to you. Our performance bikes from premier manufacturers feature light frames, smooth-rolling tires, comfortable seats, and wide gear ranges for the best ride possible. Please see our website for the exact bike models offered on tour. Additionally, e-bikes are available on most DuVine tours. Electric assist provides an extra boost to your own pedal power, so you can ride longer distances, tackle tougher climbs, and maintain a faster pace. Electric assist is available on a first-come, first-served basis. Contact your Tour Coordinator if you are interested.

Electrical Overseas

If you're traveling abroad, you will most likely need an [adapter](#), which allows your device's plug to fit into foreign outlets. North American devices run on 110/125V electricity while the majority of the world runs on 220/240V. Converters and transformers change the voltage of electricity to match your device.

Training

First and foremost, get out on your bike and start logging some miles. Nothing compares to the real thing, but if you can't cycle outside, consider spin classes. Experience with the elements of wind, actual hills, terrain, etc will help with your comfort level (balance, unexpected conditions, etc.) on tour. Always remember, training is a gradual process—don't try to overdo it or push yourself when you aren't ready. However, the most important part of training is to enjoy your ride! [Download](#) a training guide based on your Tour Level.

BIKE SAFETY

We strongly suggest that you read these simple safety instructions. They will help you bike safely before and during your tour!

- Wear a helmet—this is mandatory on tour!
- Familiarize yourself with traffic laws and obey them. Bikes do not have the right of way, but most drivers are respectful to cyclists on the road. Always ride in the direction of traffic.
- Be aware of your surroundings at all times. Knowing what is in front of and behind you may help prevent an accident.
- Alert other riders around you by announcing the presence of traffic (“car up”) or pot holes (“pot hole”).
- Learn the hand signals to indicate when you are stopping or turning.
- Operate your bike consistently and predictably—avoiding erratic movements.
- Keep at least one hand on the handlebars at all times.
- Primarily use your rear brake.
- Always be aware of weather and road conditions and how this may affect your ability to brake.
- Never wear headphones or use speakers during rides.
- Always listen to additional instructions from your guides on tour.

If you have chosen an e-bike, be aware that it is slightly heavier, faster, and more powerful than a non-electric bike. Therefore, you should anticipate a different reaction when riding downhill, breaking, or dismounting from an e-bike. Your guides can offer further instruction during your bike fitting and safety review.

YOUR TOUR QUOTE

Private Tour Details

Price

Price below is in USD, per person, based on **double** occupancy, and is valid until **XX/XX/XX** (30 days from day proposal was sent):
